It is DoD policy that:

Guidance for enlisted and civilian personnel may be provided in future revisions of this Instruction.

4.2. Mandatory and desired education, training, and experience standards for each IO career category shall be established based on the level of complexity of the duties performed by personnel in each category. These standards shall provide a DoD-wide, common foundation of knowledge necessary to enable the IO Career Force to be fully proficient in IO. Progress on this task shall be included in the annual report to the Secretary of Defense on the status of the IO Career Force.

4.3. Personnel in the IO Career Force shall be assigned for sufficient tour length durations, according to Service assignment policies, to provide continuity of IO expertise to the organization. General/Flag officers shall normally be assigned to Joint IO positions within an organization for not less than 2 years. General/Flag officers assigned to non-joint IO positions shall normally be assigned for not less than 3 years.

4.4. The DoD Components shall develop and implement a process to uniquely identify, in the appropriate personnel systems, a baseline list of Joint and Military Service IO positions. Joint-duty IO positions shall be allocated to the Military Services in accordance with DoD policy.

4.5. Professional development boards in each Military Service shall be supplemented or established to advise the Under Secretary of Defense for Intelligence (USD(I)) and Commander, United States Strategic Command on the management of accession, training, education, and career development for the IO Career Force.
