1. REISSUANCE AND PURPOSE

This Instruction reissues reference (a) to implement policy, update responsibilities, and establish a requirement for reporting and obtaining visibility of manpower authorization, requirement, individuals account, programmed manpower structure, and unit data.

2. APPLICABILITY AND SCOPE

2.1. This Instruction applies to the Office of the Secretary of Defense, the Military Services, the Chairman of the Joint Chiefs of Staff, the Combatant Commands, the Office of the Inspector General of the Department of Defense, the Defense Agencies, the DoD Field Activities, and all other organizational entities in the Department of Defense (hereafter referred to collectively as the "DoD Components"). The term "Military Services," as used above, refers to the Army, the Navy, the Air Force, and the Marine Corps.

¹ Available from OSD Director of Administration & Management web site <http://www.defenselink.mil/pubs/>, Room 1E757, Pentagon, Washington, DC 20301-4000.

2.2. This Instruction requires identification of and accounting for all active military, Reserve component, and DoD civilian (both direct hire and indirect hire) billets, and for all units in the programmed force structure.

2.3. The DoD Organization and Functions Guidebook (reference (b)) lists all specific organizations within the DoD Components affected by this Instruction.

3. DEFINITIONS

Terms used in this Instruction are defined in enclosure 2 and acronyms in enclosure 3.

4. POLICY

It is DoD policy to maintain a centralized DoD database on manpower required and authorized to operate the approved force structure. This data supplements various DoD personnel inventory data provided by DoD Instruction 1336.5 (reference (c)), DoD Instruction 7730.54 (reference (d)), and DoD Instruction 1444.2 (reference (e)). A centralized DoD database of all units (any DoD organizational entity identified with a unique identification code) is also required. This policy provides information for oversight and evaluation of programs and policies on staffing, inventory imbalances, manpower use and mix, personnel staffing and training, and units.

5. RESPONSIBILITIES

5.1. The Under Secretary of Defense for Personnel and Readiness, as the primary DoD manpower advisor to the Secretary of Defense, shall:

5.1.1. Provide policy guidance relative to the Department of Defense's overall manpower and unit information requirements.

5.1.2. Maintain oversight on the content and currency of manpower and unit data required by this Instruction.

5.1.3. Establish a Joint DoD Committee for Manpower and Unit Data. The Joint DoD Committee shall be chaired by a representative from the Requirements Directorate within the Office of the Deputy Under Secretary of Defense for Program Integration (ODUSD(PI)RQ) and include representatives from the Chairman of the Joint Chiefs of Staff, the Military Services, the Office of the Director of Administration and Management, the Assistant Secretary of Defense for Reserve Affairs, and the Defense

Manpower Data Center (DMDC). At the invitation of the chairperson, representatives from the other DoD Components may be invited to attend Committee meetings. The Committee shall meet at the call of and act as an advisor to the Director of Requirements within the Office of the Deputy Under Secretary of Defense for Program Integration (ODUSD(PI)).

5.1.3.1. The Joint DoD Committee shall:

5.1.3.1.1. Facilitate the development and use of Force Management Identifiers for use with all manpower and unit data.

5.1.3.1.2. Review ongoing or planned manpower system development and acquisition programs in the DoD Components in terms of their ability to provide data in accordance with this Instruction.

5.1.3.1.3. Act as a forum for discussion and resolution of issues arising from changes to this Instruction.

5.1.3.2. The Director of Requirements, Office of the Deputy Under Secretary of Defense for Program Integration shall:

5.1.3.2.1. Approve changes to submission schedules, as specified in this Instruction.

5.1.3.2.2. Approve changes to data requirements, as specified in this Instruction.

5.1.3.2.3. Ensure the above changes are documented in Memorandums of Understanding (MOU) between the requesting DoD Component and the ODUSD(PI)RQ.

5.1.3.2.4. Ensure organizations within the DoD Components, as listed in reference (b), are meeting the requirements of this Instruction.

5.1.4. Ensure that the Director, DMDC, serves as custodian of all automated extracts of manpower and unit organizational element files and provides technical assistance, data quality control, inquiry capabilities, and administration and computer support.

5.2. The Heads of the DoD Components shall submit manpower and unit organizational data, maintained by the DoD Component, to the centralized DoD databases maintained at the DMDC, in accordance with this Instruction. In the near

term, data is pushed to the DMDC on a quarterly basis. As the Department transitions to a distributed architecture, the DoD Components must migrate to systems that allow data to be pulled in accordance with the DoD Net-Centric Data Strategy (reference (f)), The Strategic Planning Guidance (reference (g)), and implementing guidance (reference (h)). Responsibility for manpower and unit data reporting for certain activities may be delegated to other DoD Components with the consent of the ODUSD(PI)RQ and notification to the DMDC. The reported organization shall ensure that the reporting activity has complete and accurate data and reports it according to this Instruction when reporting has been delegated to another agency.

6. INFORMATION REQUIREMENTS

6.1. Data requirements shall be in accordance with the definitions in enclosure 2 and consistent with the methodology used to provide data for preparation of the Defense Manpower Requirements Report (DMRR) (reference (i)) and the Department's Future Years Defense Program (FYDP) DoD 7045.7-H (reference (j)).

6.2. Data standards, developed in support of DoD data administration policies, as established by DoD Directive 8320.1 (reference (k)), and maintained by the Defense Information Systems Agency in the DoD Data Dictionary System (DDDS) (reference (l)) or identified by reference in enclosure 4 and enclosure 5, shall be used where specified. Organizations shall comply with the data standards contained in the coding instructions herein, and shall be responsible for any data interchange conversion costs.

6.3. When the formats or coding structures in the organizations current systems cannot be converted to the required formats or do not exist, the submitting organization shall initiate a MOU with the Director of Requirements ODUSD(PI)RQ and the DMDC within 60 days of the signing of this Instruction. The memorandum shall specify the alternative format and coding structures that shall be provided to the DMDC to meet the requirements of this Instruction and specify a schedule of when the data shall be provided in the required format.

6.4. The classification and security guidance in DoD 5200.1-R (reference (m)) and DoD Instruction 8500.2 (reference (n)) apply. Each organization shall provide a Classification Guide to the DMDC for use in conjunction with the data submitted under this Instruction, as specified in Chapter 2, Section 5. of reference (m). A list of data elements or categories requiring protection, plus a level of classification, shall be included in the implementing documents to this Instruction.

6.4.1. The highest level of classified data sent to the DMDC shall not exceed the SECRET level.

6.4.2. Record fields 7, 16, 45.1.2, and 45.1.3 of the Billet Master File format (enclosure 4) and record field 6 of the Unit Master File format (enclosure 5) all relate to the security classification of the data contained in the record.

6.4.3. The overall security classification of the Billet Master File submission (enclosure 4) shall reflect the record with the highest classification of record fields 7, 16, 45.1.2, or 45.1.3.

6.4.4. The overall security classification of the Unit Master File submission shall reflect the record with the highest classification level recorded in record field 6.

6.4.5. If both the Billet Master File and Unit Master File are submitted together, the overall security classification shall be managed as the highest classification level of either file.

6.5. Reporting shall be accomplished through electronic data transfer on the SECRET Internet Protocol Router Network (SIPRNET), Non-Secure Internet Protocol Router Network (NIPRNET), diskettes, or Compact Disks (CD) labeled, as specified in enclosure 6. Two reports are required: the Billet Master File and the Unit Master File. Accompanying each Billet and Unit Master File submission shall be sufficient documentation describing deviations from the specified format, any coding changes to standardized data elements or domain values, and the total number of records in each file. See enclosure 6. For the Billet Master File, the documentation shall also list the current year authorization totals for each organization and the current year authorization subtotals by Position Manpower Type Code category.

6.6. The Billet Master File shall be formatted according to the specifications contained in enclosure 4. It shall include a record for each unique billet as identified by the Organization Position Identifier, which is record field 8 (enclosure 4). All billets, active military, Reserve component and DoD civilian, shall be reported. Data are required for the following fiscal years (FYs): prior year, current year, current year plus 1, current year plus 2, current year plus 3, current year plus 4, and current year plus 5. Data for each reported year shall reflect the end of FY data.

6.6.1. For each Joint Duty Assignment (JDA) position within the DoD Component (as defined in enclosure 2, E2.1.11.) and identified by the Joint Duty Assignment Code, which is record field 44.1 (enclosure 4), the Billet Master File shall include a record for each position started and stopped during the interval between the

previous quarterly submission and/or the current submission that reflects the inclusive date the position was active for JDA purposes. For each JDA position include additional record(s) for every projected change over the next 24 months. Multiple projected changes to a position for the same date may be combined into a single record. Changes projected for different dates shall require multiple records each identified by the Organization Position Identifier.

6.6.2. For each acquisition billet identified by record field 22 (enclosure 4) the associated Organization Position Identifier, which is record field 8 (enclosure 4), must match the Personnel Position Number in record field 3 (enclosure 7) of DoD Instruction 5000.55 (reference (o)).

6.6.3. The Billet Master File shall be submitted quarterly to the DMDC no later than the 15th day of the month following the end of the quarter. If the billet data are not updated on a quarterly basis, approval of an alternative submission schedule shall be requested from the ODUSD(PI)RQ and the DMDC.

6.7. The Unit Master File shall be formatted according to the specifications in enclosure 5. It shall include a record for each unique Unit Identification Code (UIC), which identifies organizations having personnel, manpower, or other unit status information (i.e., separate hull number and personnel or manpower UICs). The report shall also contain a record for each unique combination of UICs, Major Command Code, and Unit ZIP Code. A UIC record shall be provided for every UIC referenced in the Billet Master File.

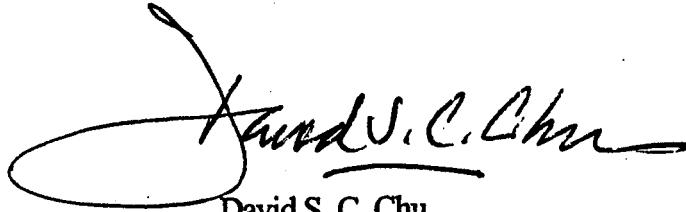

6.7.1. Unit Master File submissions shall contain information on all current unique units at the time of the submission.

6.7.2. The Unit Master File shall be submitted quarterly to the DMDC no later than the 15th day of the month following the end of the quarter. If the unit data are not updated on a quarterly basis, approval of an alternative submission schedule shall be requested from the ODUSD(PI)RQ and the DMDC.

6.8. The Billet Master File is assigned Report Control Symbol DD-P&R(SA)-1807 and the Unit Master File is assigned Report Control Symbol DD-P&R(SA)-1808 in accordance with DoD 8910.1-M (reference (p)).

7. EFFECTIVE DATE

This Instruction is effective immediately.

A handwritten signature in black ink, appearing to read "David S. C. Chu". The signature is stylized with a large, sweeping initial "D" and "C".

**David S. C. Chu
Under Secretary of Defense for
Personnel and Readiness**

E2. ENCLOSURE 2

DEFINITIONS

E2.1.1. Authorized (Manpower). The aggregation of military and civilian funded billets or positions representing the total manpower authorizations for units and organizations in the programmed force structure. Manpower authorizations are expressed in terms of one year of full-time workload.

E2.1.2. Billet or Position. Programmed manpower structure space typically defined by grade and occupation and associated with a specific unit or organization. A Billet or Position may be funded (authorized) or unfunded (generally called an unfunded requirement).

E2.1.3. Direct Hire. Employees hired directly by an Agency of the Department of Defense. Included are Foreign Nationals hired by the Department of Defense to support DoD activities in their home countries.

E2.1.4. Force Structure Deviation. The difference between operating strength and programmed manning at a point in time, or the average difference (expressed in man-years) for the entire fiscal year.

E2.1.5. Fourth Estate Organizations. Refers to DoD organizations, other than the Military Services, having DoD manpower resources. See the DoD Organization Chart within the Organization and Functions Guidebook (reference (b)) for specific organizations.

E2.1.6. Full-Time Equivalent (FTE). A measure of civilian manpower that reflects the total number of regular, straight-time hours worked by civilian employees, divided by the number of compensable hours applicable for that type of full-time employee each fiscal year. Also referred to as work-years. One FTE or work-year is equal to 2080 civilian straight-time hours.

E2.1.7. Funded. A position that is both a requirement and is authorized.

E2.1.8. Grade. The pay grade requirement of a billet or position.

E2.1.9. Indirect Hire. Foreign Nationals assigned to support U.S. Forces through contracts or agreements with foreign governments (or agencies thereof). These personnel are employees of the foreign governments involved.

E2.1.10. Individuals Account. A component of military end strength: the overhead allowance for transients, holdees (patients, prisoners, and separatees), students, trainees, and cadets or midshipmen for which funds have been allocated or requested.

E2.1.11. Joint Duty Assignment (JDA). An assignment to a designated position in a multi-Service or multi-national command or activity that is involved in the integrated employment or support of the land, sea, and air forces of at least two of the three Military Services. The preponderance of the officer's duties involves producing or promulgating national military strategy, joint doctrine, joint policy, strategic plans or contingency plans, or to commanding and controlling operations under a Combatant Command. Assignments in an officer's own Military Service or assignments for joint education or joint training or to overstrength and/or temporary positions are not covered by the definition. Medical officers, dental officers, chaplains, and judge advocates may not be assigned to a JDA position. The joint positions designated for such officers are excluded from this definition regardless of the position description. JDA positions have been individually designated by the Secretary of Defense as a joint assignment in accordance with Sections 661-668 of title 10, United States Code (reference (q)).

E2.1.12. Major Command (MAJCOM) or Major Organizational Element. Denotes major military operational command organizations and other major functional organizations within a DoD Component. For the Military Services, the term is synonymous with:

E2.1.12.1. Army: Assigned Command.

E2.1.12.2. Navy: Major Manpower Claimant.

E2.1.12.3. Marine Corps: Monitored Command.

E2.1.12.4. Air Force: Major Command and Sub-Command.

E2.1.13. Manpower. A collective term used to describe the number of personnel required to perform a function. Manpower is reflected as standard units of work that equate to 1 year of full-time support. It is reported in terms of what is required (manpower requirement) and what is authorized for employment (manpower authorization).

E2.1.14. Military End Strength. The total number of military personnel authorized to be on duty as of September 30 of each year, as approved by the Congress in the National Defense Authorization Act for that fiscal year.

E2.1.15. Occupation. The specialty skill or job series that represents the minimum qualification requirement of a billet or position. If required by the billet, additional skill requirement information shall be included as part of the occupation.

E2.1.17. OSD Functional Oversight Authority. That official, within the OSD, assigned programmatic oversight responsibilities on specific mission or program areas. Functional oversight authorities are at the "Assistant Secretary of Defense" or equivalent level.

E2.1.17. Program Element Code (PEC). A ten-position alphanumeric code that describes the mission supported by a billet, group of billets, or unit. The PEC is the basic building block of the budget and the FYDP.

E2.1.18. Programmed Force Structure. The set of units and organizations that exists in the current year and that are planned and programmed for a given fiscal year.

E2.1.19. Programmed Manning. Those billets in the programmed manpower structure that are planned to be staffed with trained personnel at the end of the fiscal year. Programmed manning is a statement of distribution policy; the term is synonymous with:

E2.1.19.1. Army: Force Structure Allowance (MTOE and TDA).

E2.1.19.2. Navy: Distributable Billets.

E2.1.19.3. Air Force: Force Structure Authorizations.

E2.1.19.4. Marine Corps: Authorized Strength Report.

E2.1.19.5. Defense Agencies: Funded Requirements.

E2.1.20. Programmed Manpower Structure. The aggregation of billets describing the full manpower requirement for units and organizations in the programmed force structure. The programmed manpower structure does not include Individual Mobilization Augmentees (IMA) and Individuals. For operational units, the term is synonymous with the "table of organization" structure (or its equivalent), and for non-operational units, it means the structure associated with full peacetime workload requirements. Operational units are those combat, combat support, and combat service support organizations with operational readiness reporting requirements under the Status of Resources and Training System.

E2.1.21. Requirement (Manpower). The aggregation of military and civilian, funded and unfunded, positions representing the total manpower requirement for units and organizations in the programmed force structure. Manpower requirements are expressed in terms of 1 year of full-time workload and are determined independent of resource constraints and based on sound manpower management determinations.

E2.1.22. Unfunded. A position (manpower requirement) that is not funded and therefore is not authorized.

E2.1.23. Unit. Any organizational element with a mission and structure prescribed by competent authority, such as an organization letter or table of organization and equipment.

E4. ENCLOSURE 4
BILLET MASTER FILE FORMAT

E4.1. GENERAL

The organization(s) listed in the Submitter column of Table E4.T1. have reporting requirements for the associated data element. Table E4.T2. explains the abbreviations used in the Submitter column. If an Organization does not have a reporting requirement for the specific data element report not applicable.

Table E4.T1. Billet Master File Format

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
1	1-6	Data Effective Period Date	Length 6. The date that identifies the as of calendar year and month of the data in the submission file. YYYY12 The December submission YYYY03 The March submission YYYY06 The June submission YYYY09 The September submission	All	
2	007	Organization Type Code	Length 1. The code that uniquely represents the type of organization that owns the position. A Office of Secretary of Defense and DoD Inspector General B Joint Staff and Chairman Controlled Activities C Combatant Commands/Multi-National Force D Military Services E Defense Agencies F DoD Field Activities G Other Defense-wide Organizations H Executive Office of the President I Cabinet-Level Departments and Agencies J Federal Boards, Commissions and Committees K Federal Independent Agencies and Government Corporations L Federal Quasi-Official Agencies M Federal Legislative Branch N Federal Judicial Branch O State and Local Government Activities	All

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
7	027	Record Security Classification Code	Length 1. The code that represents the highest security classification assigned to data in the record (reference (m)). The code denotes the degree of damage that unauthorized disclosure would cause to National Defense or Foreign Relations and the degree of protection required. C Confidential S Secret U Unclassified	All	
8	028-047	Organization Position Identifier	Length 20. The identifier that represents a unique position as defined by the DoD Component. This is an alphanumeric domain value. Army: Report Paragraph, Sub-Paragraph, Line Number and a unique identifier for each record. Air Force: Report the Major Command Code and Position Number. Navy: Report the Billet Identification Number. Marine Corps: Report the Billet Identification Code. Fourth Estate Organizations: Report the unique identifier within the reporting Organization.	All	DDDS 17485
9	048-097	Work Center Name	Length 50. The name of the work center or section in which the position resides. Also known as paragraph title. If not applicable, report all W's. If unknown, report all Z's.	All	
10	98-107	Work Center Identifier	Length 10. The unique identifier that represents a work center (also known as Paragraph). If not applicable, report all W's. If unknown, report all Z's.	All	
11	108-157	Work Center Position Name	Length 50. The name or title of the position within the work center (also known as Line Number Title or Billet Title Text). If not applicable, report all W's. If unknown, report all Z's.	All	DDDS 27486
12	158-167	Work Center Position Identifier	Length 10. The identifier that represents a unique position within a work center of an Organization (also known as Line Number). If not applicable, report all W's. If unknown, report all Z's.	All	DDDS 17485

Table E4.T1. Billet Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
13	168-171	Position Geolocation Code	Length 4. The code that represents a Geographic location (GEOLOC) of the base, station, port, city, or other place at which the position is permanently located. Maybe distinct from the unit GEOLOC. If not applicable, report all 0's. If unknown, report all 9's.	All	DDDS 17385
14	172-179	Filler	Length 8. Report all blanks.	N/A	
15	180-189	Program Element Code	Length 10. The PEC represents a primary object in the FYDP that corresponds to a particular mission within a major defense program. See DoD 7045.7-H (reference (i)) for a list of domain values and definitions. This code provides the linkage between the planning, programming and budgeting phase and the execution phase of the budget and accounting cycle. If unknown, report all Z's.	All	DDDS 39898
16	190	PEC Security Classification Code	Length 1. The code that represents the security classification of the requirement manpower strengths associated with a specific PEC (reference (m)). The code denotes the degree of damage that unauthorized disclosure would cause to National Defense or Foreign Relations and the degree of protection required. C Confidential S Secret U Unclassified	All	
17	191-194	Position Manpower Resource Identification Code	Length 4. The Resource Identification Code (RIC) represents the type of manpower resource assigned to each program element. See DoD 7045.7-H (reference (j)) for a list of domain values and definitions. If not applicable, report all W's. If unknown, report all Z's.	All	
18	195	Individuals Account Code	Length 1. The code that represents the type of the Individuals Account. If not applicable, report W. *For Individuals Accounts coded "H" or "M," record fields 4, 6, 9, 10, 13, 14, 17, 19-30, 32-36, 44, and 45 may be coded as not applicable. C Cadets or Midshipmen H Patients, prisoners, and holdees*	Mil

19	196	Position Reserve Manpower Type Code	<p>M Transients*</p> <p>S Students (personnel attending non-initial entry training)</p> <p>T Trainees (personnel attending initial entry training)</p> <p>Length 1. The code that represents the type of Reserve manpower participation and training requirements for a position. If not applicable, report W.</p> <p>A Selected Reserve (not including AGR, MILTECH or IMA)</p> <p>B Active Guard and Reserve (AGR)</p> <p>C Military Technician (MILTECH)</p> <p>D Individual Mobilization Augmentee (IMA)</p>	All	
20	197	Acquisition Certification Type Code	<p>Length 1. The code that represents the degree of an acquisition certification type required of an incumbent of a position. If not applicable, report W.</p> <p>A Entry Level (I) - Trainee exposed to the functions of acquisition and the roles of its various specialization</p> <p>B Intermediate Level (II) - Continued area specialization with a broadening toward a more general expertise in the overall acquisition process</p> <p>C Senior Level (III) - In-depth knowledge of the specialization area, mandatory training and evaluation requirements completed and knowledge that spans the entire acquisition</p>	All	DDDS 28662
21	198	Acquisition Position Significance Code	<p>Length 1. The code that indicates the type of acquisition position. If not applicable, report W.</p> <p>1 Critical Acquisition Position</p> <p>2 Acquisition Position - Not Critical</p>	All	
22	199	Acquisition Position Category Code	<p>Length 1. The required career field code for an acquisition position. See attachment 2 for domain values. If not applicable, report 0.</p>	All	

Table E4.T1. Billet Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
23	200	Acquisition Position Specialized Nature Code	Length 1. The code applies to positions involving acquisition assignments. See attachment 3 for domain values. If not applicable, report 0.	All	DDDS 54310
24	201-202	Education Level Code	Length 2. The code that represents an advanced educational status or level required of the incumbent filling a position. If not applicable, report 00. If unknown, report 99. 36 Master's degree 37 Post-Master's degree 38 Professional degree 42 Doctorate degree 43 Post-Doctorate degree	All	DDDS 22030
25	203-206	Function Code	Length 4. The code that represents the primary task associated with a manpower position. See attachment 4 for a list of domain values and titles. See Office of Under Secretary of Defense (Personnel and Readiness) (OUSD(P&R)) Function Code document (reference (r)) for comprehensive domain value explanations. If not applicable, report all W's. If unknown, report all Z's.	All	
26	207	Manpower Mix Criteria Code	Length 1. The code that represents the type of manpower for a DoD position. See attachment 5 for a list of domain values and titles. See Office of Under Secretary of Defense (Personnel and Readiness) (OUSD(P&R)) Manpower Mix Criteria Code document (reference (s)) for comprehensive domain value explanations. If not applicable, report 0. If unknown, report 9.	All	
27	208	Filler	Length 1. Reserved for future reporting of Manpower Mix Criteria Code. Leave blank.	N/A	
28	209	Financial Disclosure Statement Requirement Code	Length 1. The code that represents whether a position incumbent requires a financial disclosure statement or not. If not applicable, report W. If unknown, report Z. Y Yes N No	All	

Table E4.T1. Billet Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
29	210	Rated Aeronautical Expertise Code	Length 1. The code that represents whether a position incumbent must possess a rated aeronautical expertise. Ratings include pilots, navigators, flight testers and astronauts. If not applicable, report W. If unknown, report Z. Y Yes N No	All	
30	211	Clearance Requirement Security Classification Code	Length 1. The code that represents the highest level of classified information to which the position has access. [Note: This data element is not deemed CLASSIFIED INFORMATION unless otherwise determined by the reporting organization.] If not applicable, report W. If unknown or to mask if deemed CLASSIFIED INFORMATION and exceeds the Classification level of SECRET, report Z. C Confidential S Secret T Top Secret U Unclassified	All	
31	<u>212-217</u>	<u>31.1. PayPlan, Grade and Step data</u>	Reporting related to a schedule for monetary compensation and a sequential level within that schedule used to determine the rate of civilian and military Basic Pay.		
	212-213	31.1.1. Position Pay Plan Code	Length 2. The code that represents a pay category or a schedule for monetary compensation required by the positions. See attachment 6 for a list of domain values and definitions.	All	DDDS 20374
	214-215	31.1.2. Position Pay Plan Grade Identifier	Length 2. The identifier that represents a sequential level within a pay category or schedule required by the position. 01-09 Enlisted grades 1 through 9 01-05 Warrant Officer grades 1 through 5 01-11 Commissioned Officer grades 1 through 11 00-66 Civilian grades 0 through 66 or alpha codes as required by specific pay plans. For Individual Account positions, report "00". If the pay plan associated with a billet does not have a grade structure, then report "00".	All	DDDS 20369

Table E4.T1. Billet Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
	216-217	31.1.3. Position Pay Plan Grade Step Identifier	Length 2. The identifier that represents the applicable step. Only report the Grade Step Identifier for Pay Plan Code "ES" that does not have an associated Pay Plan Grade Identifier. Report "00" for all other Pay Plan Codes.	All	DDDS 20370
32	218-223	Position DoD Occupation Code	01-06 Civilian steps 1 through 6 Length 6. The code that represents a classification of the domain values of several sets of military and civilian occupation codes required to fill a position. If left blank, DMDC will furnish the Position DoD Occupation Code.	N/A	DDDS 60476
33	<u>224-229</u>	<u>33.1. Civilian Occupation data</u>	The unique set of codes that represent the civilian occupation requirement of the position.		
	224	33.1.1. Civilian Personnel Type Code	Length 1. The code that represents the type of personnel for the civilian position. If not applicable, report 0. If unknown, report 9. 1 Position is for US citizen 2 Position is for local national 3 Position is for non-US citizen in US 4 Other		
	225	33.1.2. Civilian Hire Category Code	Length 1. The code that represents the category of hire for civilian positions. If not applicable, report W. If unknown, report Z. A Direct hire B Indirect hire	All	DDDS 29199
	226-229	33.1.3. Civilian Occupation Series Type Code	Length 4. The code that represents the occupation required for a civilian incumbent of a position. See OPM Operating Manual (reference (t)) for a listing of domain values and definitions. If not applicable, report all W's. If unknown, report all Z's. Valid white collar occupation codes: 0001 - 2299 Valid blue collar occupation codes: 2501 - 9999	All	DDDS 54296

		<u>34.4. USN (Enlisted)</u>	See USN Manual NAVPERS 18068F (reference (v)) for lists containing domain values and definitions.		
	230-232	34.4.1. Rating Code	Length 3. The code that represents a grouping of duty positions requiring similar qualifications, and the performance of closely related duties. If not applicable, report all W's. If unknown, report all Z's.	NV/4 th	
	233-236	34.4.2. Primary Navy Enlisted Classification Code	Length 4. The Navy Enlisted Classification Code (NEC) represents a non-rating wide skill, knowledge, aptitude, or qualification. If not applicable, report all W's. If unknown, report all Z's.	NV/4 th	
	237-240	34.4.3. Secondary Navy Enlisted Classification Code	Length 4. The NEC Code represents a non-rating wide skill, knowledge, aptitude, or qualification. If not applicable, report all W's. If unknown, report all Z's.	NV	
	241-251	34.4.4. Filler	Length 11. Report all blanks.	N/A	
		<u>34.5. USN (Warrant Officer / Officer)</u>	See USN Manual NAVPERS 15839I (reference (w)) for lists containing domain values and definitions.		
	230-233	34.5.1. Billet Designator Code	Length 4. The code that represents the primary naval specialty qualification required of the billet incumbent and to administratively categorize officer billets for proper management and identification. If not applicable, report all W's. If unknown, report all Z's.	NV/4 th	
	234-237	34.5.2. Primary Navy Officer Billet Code	Length 4. The Navy Officer Billet Code (NOBC) represents a general description of duties performed in a billet. If not applicable, report all W's. If unknown, report all Z's.	NV/4 th	
	238-241	34.5.3. Secondary Navy Officer Billet Code	Length 4. The NOBC represents a general description of duties performed in a billet. If not applicable, report all W's. If unknown, report all Z's.	NV	

Table E4.T1. Billet Master File Format, Continued

242-244	34.5.4.	Additional Qualification Designator Code	Length 3. The Additional Qualification Designator (AQD) Code enhances billet designator codes by identifying more specifically the qualifications of officers and the qualifications required by the billet. If not applicable, report all W's. If unknown, report all Z's.	NV/4 th	
245-249	34.5.5.	Subspecialty Code	Length 5. The Subspecialty (SSP) code represents the requirements for advanced education, functional training, and significant experience in various fields and disciplines. If not applicable, report all W's. If unknown, report all Z's.	NV/4 th	
250-251	34.5.6.	Filler	Length 2. Report all blanks.	N/A	
	34.6.	<u>USAF (Enlisted/ Officer)</u>	See USAF Manual 36-2108 (reference (x)) and USAF Manual 36-2105 (reference (y)) for lists containing domain values and definitions.		
230	34.6.1.	Air Force Specialty Code Prefix Code	Length 1. The Prefix code to Air Force Specialty Code (AFSC) represents specific skills and abilities not restricted to a single career field. If not applicable, report 0. If unknown, report 9.	AF	
231-235	34.6.2.	Air Force Specialty Code	Length 5. The AFSC represents the basic grouping of positions requiring similar skills and qualifications. If not applicable, report all W's. If unknown, report all Z's.	AF/4 th	
236	34.6.3.	Air Force Specialty Code Suffix Code	Length 1. The suffix code to an AFSC represents specialization in a specific type of equipment or function. If not applicable, report 0. If unknown, report 9.	AF/4 th	
237-239	34.6.4.	Special Experience Identifier	Length 3. The Special Experience Identifier (SEI) represents special experience and training not otherwise reflected in the classification system. If not applicable, report all W's. If unknown, report all Z's.	AF	
240-251	34.6.5.	Filler	Length 12. Report all blanks.	N/A	
	34.7.	<u>USMC (Enlisted / Warrant Officer / Officer)</u>	See USMC Manual MCO P1200.7Y (reference (z)) for lists containing domain values and definitions.

	265	44.1. Joint Duty Assignment Code	Length 1. The code that represents if a position is a JDA Officer assignment that has been approved by the Secretary of Defense under the Goldwater-Nichols Reorganizations Act and codified in Sections 661-668 of title 10 (reference (q)). Y Yes N No	All	
	266	44.2. Joint Duty Assignment Critical Position Code	Length 1. The code that represents whether a JDA position is a critical JDA position under the Goldwater-Nichols Reorganization Act and codified in U.S. Code Sections 661-668 of title 10 (reference (q)). If not applicable, report W. Y Yes N No	All	
	267-274	44.3. Joint Duty Assignment Position Start Date	Length 8. The date when a JDA position was or will be started on the Joint Duty Assignment List (reference (aa)). If not applicable, report '01011800'.	All	
	275-282	44.4. Joint Duty Assignment Position Stop Date	Length 8. The date when a JDA position was or will be stopped on the Joint Duty Assignment List (reference (aa)). If indefinite report '12312999'. If not applicable, report '01011800'.	All	
	283-290	44.5. Joint Duty Assignment Board Review Date	Length 8. The date when the JDA Board reviewed the JDA position (reference (aa)). If not applicable, report '01011800'.	All	
	291-298	44.6. Joint Duty Assignment Position Attributes Change Effective Date	Length 8. The date when any attribute of a JDA position changes (reference (aa)). Report any JDA position both started and stopped during the interval between the previous and current submission and every projected change over the next 24 months. If changes occurred over a period of time report multiple records. Multiple projected changes for the same date may be combined into a single record. If not applicable, report '01011800'.	All	

Table E4.T1. Billet Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
45	299-306	44.7. Joint Duty Assignment Position Identifier	Length 8. The unique identifier that represents a JDA position in the JDA List (reference (q)). If not applicable, report all W's. Position 1 is Major Activity Identifier (alphanumeric) Positions 2 - 4 is Subactivity Identifier (numeric) Positions 5 - 8 is Position Identifier (numeric)	All	
	307	44.8. Joint Duty Assignment Joint Professional Military Education Exempt Code	Length 1. The code indicates the JDA position is exempt from sending the incumbent to Joint Professional Military Education (reference (q)). If not applicable, report W. Y The position is exempt from sending the incumbent to Joint Professional Military Education. N The position is not exempt from sending the incumbent to Joint Professional Military Education.	All	
	<u>308-412</u>	Organization Specific data 45.1. <u>USA-Specific Data</u>	Organization data that provides additional information about the billet position. Applicable to positions reported by USA.		
	308-315	45.1.1. Army Management Structure Code	Length 8. The Army Management Structure Code (AMSC) (reference (bb)) represents the framework for interrelating programming, budgeting, accounting and manpower control in a standard classification of activity functions. If not applicable, report all W's. If unknown, report all Z's.	AR	DDDS 36963 (D)
	316	45.1.2. Individual AMSC Security Classification Code	Length 1. The code that represents the security classification (reference (m)) of manpower strengths identified by the individual AMSC. Based upon Security Classification Guidelines for NFIP Resource Information (reference (cc)). The code denotes the degree of damage that unauthorized disclosure would cause to National Defense or Foreign Relations and the degree of protection required. This field is mandatory if AMSC is provided. C Confidential S Secret U Unclassified	AR	

Table E4.T1. Billet Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
	317	45.1.3. Group AMSC Security Classification Code	Length 1. The code that represents the security classification (reference (m)) of manpower strengths identified by the group AMSC. Based upon Security Classification Guidelines for NFIP Resource Information (reference (cc)). The code denotes the degree of damage that unauthorized disclosure would cause to National Defense or Foreign Relations and the degree of protection required. This field is mandatory if AMSC is provided. C Confidential S Secret U Unclassified	AR	
	318-319	45.1.4. Personnel Remark 1 Code	Length 2. The code (reference (dd)) that represents an additional duty of the position. If not applicable, report WW. If unknown, report ZZ.	AR	
	320-321	45.1.5. Personnel Remark 2 Code	Length 2. The code (reference (dd)) that represents an additional duty of the position. If not applicable, report WW. If unknown, report ZZ.	AR	
	322-323	45.1.6. United States Army Basic Branch Code	Length 2. The code (reference (u)) that represents a grouping of officers that comprises an arm or service of the Army in which an officer is commissioned, trained, developed, and promoted. If not applicable, report WW. If unknown, report ZZ.	AR	DDDS 64587 (D)
	324-325	45.1.7. Enlisted Military Occupational Specialty Career Management Field Code	Length 2. The Career Management Field (CMF) code (reference (u)) represents a manageable grouping of related MOS that provides visible and logical progression to grade E9. If not applicable, report WW. If unknown, report ZZ.	AR	DDDS 64624 (D)
	326-412	45.1.8. Filler 45.2. <u>USN-specific data</u>	Length 87. Applicable to positions reported by USN.	N/A	
	308-309	45.2.1. Manpower Resource Code	Length 2. The alphabetic code (reference (ee)) that represents the types of resources for the FYDP in the Total Force Manpower Management System. If not applicable, report WW. If unknown, report ZZ.	NV	

Table E4.T1. Billet Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
	310-319	45.2.2. Activity Code	Length 10. The code (reference (ff)) that represents the type of activity. The first four positions of this 10-digit code represent activity type. The next four positions represent hull number if a ship, a squadron number if an aircraft squadron, or a unique number within the type to identify a shore activity. The last two positions represent component code and contains zeros if a parent activity, or contains the values 01-98, 99 is assigned to personnel accounting activities only. If not applicable, report all W's. If unknown, report all Z's.	N/A	
	320-327	45.2.3. Homeport Geolocation Code	Length 8. The code (reference (gg)) that represents the Homeport location of the position. The first two positions indicate the State, U.S. territory, or foreign country where the property is located. Numbers identify property located in States, and letters identify property located in U.S. territories and foreign countries. The next four positions, identified by numbers, indicate the city or town where the installation is located. The last three positions, identified by numbers, indicate the county (within each State), U.S. territory, or foreign country, where the installation is located. If not applicable, report all W's. If unknown, report all Z's.	NV	
	328-412	45.2.4. Filler	Length 85.	N/A	
		45.3. <u>USAF-specific data</u>	Applicable to positions report by USAF.		
	308-311	45.3.1. Functional Account Code	Length 4. The Functional Account Code (FAC) (reference (hh)) represents a homogeneous grouping of tasks (a particular function). The four characters are controlled by HQ USAF and describe the organization down to the basic function. If not applicable, report all W's. If unknown, report all Z's.	AF	DDDS 47445 (D)
	312-313	45.3.2. Functional Account Shred-out	Length 2. The Shred-out is used in conjunction with the basic FAC to provide a more refined description of homogenous tasks. The Shred-outs are MAJCOM controlled and used to identify command peculiar work centers. These two characters are listed in MAJCOM directives. If not applicable or the Shred-out is not used report 00.	AF

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
	314	45.3.3. Air Force Reserve Technician Code	Length 1. The Air Force Reserve Technician (ART) code is used to identify an individual simultaneously filling both a reserve force requirement and its related peacetime civilian requirement. If not applicable, report W. If unknown, report Z. Y Yes (position is ART) N No (position is not ART)	AF	
	315	45.3.4. Aircrew Position Identifier	Length 1. The Aircrew Position Identifier (API) (reference (hh)) represents an officer position's requirement for an aeronautical rating. If not applicable, report W. If unknown, report Z.	AF	
	316-412	45.3.5. Filler	Length 97.	N/A	
		45.4. <u>USMC-specific data</u>	Applicable to positions reported by USMC.		
	308-313	45.4.1. Command Reporting Unit Code	Length 6. The Command Reporting Unit Code (CRUC) (reference (ii)) represents the unit that has authority of the Marine member's personnel records. Populate the first position with "M" and the remaining 5 positions with the CRUC. The CRUC is used for administration purposes. If not applicable, report all W's. If unknown, report all Z's.	MC	
	314-316	45.4.2. Monitored Command Code	Length 3. The Monitored Command Code (MCC) (reference (ii)) represents a particular command/organization. The MCC is used by Headquarters, USMC to assign a Marine to a particular command/organization. If not applicable, report all W's. If unknown, report all Z's.	MC	
	317-412	45.4.3. Filler	Length 96.		
		<u>45.5.4th Estate-Specific Data</u>	Applicable to positions reported by Fourth Estate Organizations.		
	308-315	45.5.1. Position Start Date	Length 8. The date when the position was or will be started. If unknown report "01011809".	4th	
	316-323	45.5.2. Position Stop Date	Length 8. The date when the position was or will be stopped. If unknown report "01011809". If indefinite report "12312999".	4th

6	024	Organization Record Security Classification Code	Length 1. The code that represents the highest security classification assigned to information contained in the organization record (reference (m)). The code denotes the degree of damage that unauthorized disclosure would cause to National Defense or Foreign Relations and the degree of protection required. C Confidential S Secret U Unclassified	All	
7	025-054	Organization Abbreviated Name Text	Length 30. The text of the assigned abbreviated name of the official designation of an organization. If not applicable, report all W's. If unknown, report all Z's.	All	
8	055-109	Organization Long Name Text	Length 55. The text of the official long name of the organization. If not applicable, report all W's. If unknown, report all Z's.	All	
9	110-149	Mailing Address Line 1 Text	Length 40. The text of the detailed portion of an organization's mailing address. This may include street number and name, apartment number, building number or name, post office box number, rural route number and box number. If not applicable, report all W's. If unknown, report all Z's.	All	
10	150-189	Mailing Address Line 2 Text	Length 40. The second line of text of an organization's address containing information to complete the organization's mailing address. If not applicable, report all W's. If unknown, report all Z's.	All	
11	190-209	Mailing Address Postal Region City Place Name	Length 20. The name of the highest-level delivery station within a postal state territory, or country for an organization's mailing address. If not applicable, report all W's. If unknown, report all Z's.	All	
12	210-211	Mailing Address US Postal Region State Code	Length 2. The code that represents the state, territory, or military overseas or afloat designation as the highest level subdivision of a US postal region for an organization's mailing address. See ATTACHMENT 1 for a list of domain values and definitions. If non-US or unknown, report ZZ.	All	DDDS 33363

Table E5.T1. Unit Master File Format. continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
13	212-213	Mailing Address Country Code	Length 2. The code that represents the principal geopolitical entity of the world for an organization's mailing address. See ATTACHMENT 2 for a list of domain values and definitions. Report US for the 50 States and District of Columbia and the appropriate value for other US and all non-US Territory. If unknown, report ZZ.	All	DDDS 14392
14	214-222	Mailing Address US Postal Region ZIP Identifier and Extension Identifier	Length 9. The identifier that represents a designated United States Postal Service (USPS) mail service region and a definitive delivery drop with the region for the normal shore location or homeport of the organization. If the Extension Identifier is unknown, report all zeros in the last four positions of the field. If non-USPS or unknown, report all zeros.	All	DDDS 33366 and DDDS 33365
15	223-231	Mailing Address Postal Code Identifier	Length 9. The Zip Code equivalent for non-U.S. Postal addresses. If not applicable, report all 0's. If unknown, report all 9's.	All	
16	232-235	Home Geolocation Code	Length 4. The code that represents the geographic location code for the base, station, port, city, or other place at which the record organization/unit is permanently located. If unknown, report all 9's.	All	DDDS 17385
17	236-238	Installation Type Code	Length 3. The code that represents the type of installation the organization/unit is permanently located. If unknown, report all Z's.	All	DDDS 62463
18	239-242	Present Geolocation Code	Length 4. The code that represent the geographic location code for the base, station, port, city, or other place at which the record unit is presently located. If unknown, report all 9's.	All	DDDS 17385
19	243-245	Unit Level Code	Length 3. The code that represents the size and organization of the unit. See CJCSM 3150.02 (reference (jj)) for a list of domain values and definitions. If not applicable, report all W's. If unknown, report all Z's.	All	
20	246	Unit Descriptor Code	Length 1. The code that represents the record unit's component, general status, and primary mission. See CJCSM 3150.02 (reference (jj)) for a list of domain values and definitions. If not applicable or unknown leave blank.	Mil	

Table E5.T1. Unit Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
21	247-251	Unit Type Code	Length 5. The code that represents the categorization of the record unit by kind, class, or type of unit with common distinguishing characteristics. See CJCSM 3150.02 (reference (j)) for a list of domain values and definitions. If not applicable, report all W's. If unknown, report all Z's.	Mil	
22	252-254	Major Command Code	Length 3. The unique code that represents the highest level organization of the assigned unit. Report the same code as submitted to DMDC under DoD Instruction 1336.5 (reference (c)). If not applicable, report all W's. If unknown, report all Z's. Army: Report the Command Assignment code and one blank. Navy: Report the Navy Claimant code and one blank. Air Force: Report the PAS Major Command and Subcommand Identifier. Marine Corps: Report the Monitoring Command Code.	Mil	
23	255-264	Parent Unit Identification Code	Length 10. The UIC of the unit from whose organic resources the record unit was formed. If not applicable, report all W's. If unknown, report all Z's.	All	DDDS 15190
24	265-274	Administrative Control Unit Identification Code	Length 10. The UIC of the unit exercising Administrative Control (ADCON) over the record unit. If not applicable, report all W's. If unknown, report all Z's.	All	DDDS 15190
25	275-284	Operational Control Unit Identification Code	Length 10. The UIC of the unit exercising Operational Control (OPCON) over the record unit. If not applicable, report all W's. If unknown, report all Z's.	All	DDDS 15190
26	285-308	Organization Specific data	Organization data that provides additional information about the billet position. Applicable to all units, activities and organizations reported by the USA.		
	285	26.1. <u>USA-specific data</u> 26.1.1. Type Unit Code	Length 1. The Type Unit Code (TYPCO) represents the basic organization of a unit. If not applicable, report W. If unknown, report all Z. M Modified Table of Organization and Equipment T Table of Distribution and Allowances	AR	

Table E5.T1. Unit Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
	286-292	26.1.2. Military Unit Troop Sequence Identifier	Length 7. The Troop Sequence Identifier (TPSN) (reference (kk)) represents a group of units by mission, types, and size. If not applicable, report all W's. If unknown, report all Z's.	AR	DDDS 15249
	293-304	26.1.3. Standard Requirements Code	Length 12. The Standard Requirements Code (SRC) (reference (ll)) represents the unit's basic Table of Organization and Equipment or MTOE or elements and variations thereof. If not applicable, report all W's. If unknown, report all Z's.	AR	
	305-308	26.1.4. Filler	Length 4.	N/A	
		26.2. <u>USN-specific data</u>	Applicable to all units, activities and organizations reported by the USN.		
	285	26.2.1. Sea/Shore Code	Length 1. The code (reference (mm)) that represents whether the reported unit is a sea or shore unit. If not applicable, report 0. If unknown, report 9.	NV	
	286	26.2.2. Activity Designation Code	Length 1. The code (reference (ff)) that represents the operational status of the activity for purposes of travel entitlement (sea, shore or mobile). If not applicable, report W. If unknown, report Z.	NV	
	287-288	26.2.3. Activity Mission Code	Length 2. The code (reference (ff)) that groups activities by mission (sea duty, shore) and relates an activity to a placement desk in Bureau of Naval Personnel. If not applicable, report all W's. If unknown, report all Z's.	NV	
	289-298	26.2.4. Activity Code	Length 10. The code (reference (ff)) that represents the type of activity. The first four positions of this 10-digit code represent activity type. The next four positions represent hull number if a ship, a squadron number if an aircraft squadron, or a unique number within the type to identify a shore activity. The last two positions represents component code and contains zeros if a parent activity, or contains the values 01-98, 99 is assigned to personnel accounting activities only. If not applicable, report all W's. If unknown, report all Z's.	NV	

Table E5.T1. Unit Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
	299	26.2.5. Activity Type Composite Code	Length 1. The code (reference (ff)) that groups activities by various types of activities (i.e., ships, squadrons, students, training, Navy support to Marine Corps, recruits, afloat staffs, shore staffs, Navy Management Headquarters, support outside Navy, etc.). If not applicable, report W. If unknown, report Z.	NV	
	300	26.2.6. Detachment Code	Length 1. The code that represents the organizational status of the reported unit. If not applicable, report 0. If unknown, report 9. 1 Complete unit 2 Headquarters element of unit 3 Detached element from unit	NV	
	301-308	26.2.7. Geographic Homeport Location Code	Length 8. The code (reference (gg)) that represents the Homeport location of the activity. The first two positions indicate the State, U.S. territory, or foreign country where the property is located. Numbers identify property located in States, and letters identify property located in U.S. territories and foreign countries. The next four positions, identified by numbers, indicate the city or town where the installation is located. The last three positions, identified by numbers, indicate the county (within each State), U.S. territory, or foreign country, where the installation is located. If not applicable, report all W's. If unknown, report all Z's.	NV	
		26.3. <u>USAF-specific data</u>	Applicable to all units, activities and organizations reported by the USAF.		
	285-286	26.3.1. Military Personnel Flight Code	Length 2. The code (reference (hh)) that represents the base to which the organization is attached. If not applicable, report WW. If unknown, report ZZ.	AF	
	287-288	26.3.2. Major Command Number Code	Length 2. The code (reference (hh)) that represents the Air Force Major Command. If not applicable, report WW. If unknown, report ZZ.	AF	
	289-308	26.3.3. Filler	Length 20.	NV	
		26.4. <u>USMC-specific data</u>	Applicable to all units, activities and organizations reported by the USMC.		
	285-294	26.4.1. Table of Organization Text	Length 10. The text (reference (nn)) that identify Marine Corps units by organization type and numbers of personnel authorizations. If not applicable, report all W's. If unknown, report all Z's.	MC	

Table E5.T1. Unit Master File Format, continued

Field	Position	Data Element Name	Data Element Description, Coding Instructions, and Remarks	Submitter	References
	295-300	26.4.2. Command Reporting Unit Code	Length 6. The Command Reporting Unit Code (CRUC) (reference (ii)) represents the unit that has authority of the Marine member's personnel records. The CRUC is used for administration purposes. Populate the first position with "M" and the remaining 5 positions with the CRUC. If not applicable, report all W's. If unknown, report all Z's.	MC	
	301-303	26.4.3. Monitored Command Code	Length 3. The Monitored Command Code (MCC) (reference (ii)) represents a particular command/organization. The MCC is used by HQ USMC to assign a Marine to a particular command/organization. If not applicable, report all W's. If unknown, report all Z's.	MC	
	304-308	26.4.4. Filler	Length 5.	N/A	
		26.5. <u>4th Estate-Specific Data</u>	Applicable to units, activities and organizations reported by Fourth Estate Organizations.	N/A	
	<u>285-308</u>	26.5.1. <u>Organization Sub-Activity Code</u>	The unique set of codes that represent the hierarchical sub-activities within an Organization. Report organization-specific codes and provide a table relating domain value codes and organization sub-division names.		
	285-294	26.5.1.1. Organization Sub-Activity Code 1	Length 10. The code that uniquely represents the first-order (highest level) sub-activity that owns the position within an organization. Within a Fourth Estate organizations these may be high-level sub-activities called deputates or directorates. If not applicable, report all W's.	4th	
	295-304	26.5.1.2. Organization Sub-Activity Code 2	Length 10. The code that uniquely represents the second level entity that owns the position within an organization. For a Fourth Estate organization whose first level organizational breakdown is a directorate, the second level may be called divisions. If not applicable, report all W's.	4th	
	305-308	26.5.2. Filler	Length 4.	N/A

VT	Vatican City	
VE	Venezuela	
VM	Vietnam	Replaced VN (Viet-nam, North) and VS (Vietnam, Republic of) in August 1976.
	Viet-nam, North	Obsolete value (formerly VN); replaced by VM(Vietnam) in August 1976.
	Vietnam, Republic of	Obsolete value (formerly VS); replaced by VM(Vietnam) in August 1976.
VQ	Virgin Islands	Defined as "Virgin Islands of the U.S." from March 1977 to April 1983.
WQ	Wake Island	
WF	Wallis and Futuna	
WE	West Bank	
WI	Western Sahara	Replaced SS (Spanish Sahara) in March 1977.
WS	Western Samoa	
YM	Yemen	Replaced YE (Yemen (Sanaa)) and YS (Yemen (Aden)) in October 1990.
	Yemen (Aden)	Obsolete value (formerly YS); replaced by YM(Yemen) in October 1990. Defined as "Southern Yemen" prior to June 1974.
	Yemen (Sanaa)	Obsolete value (formerly YE); replaced by YM(Yemen) in October 1990. Defined as "Yemen (Sana)" from June 1975 to May 1981, "Yemen (San'a)" from June 1974 to May 1975, and "Yemen" prior to June 1974.
	Yugoslavia	Obsolete value (formerly YO); replaced by BK (Bosnia and Herzegovina), HR (Croatia), MK (Macedonia), MW (Montenegro), SI (Slovenia), and SR (Serbia) in August 1992.
CG	Zaire	Defined as "Congo (Kinshasa)" prior to June 1974.
ZA	Zambia	
ZI	Zimbabwe	Replaced RH (Southern Rhodesia) in May 1980.

E6. ENCLOSURE 6
SUBMISSION INSTRUCTIONS

E6.1. DATA SPECIFICATIONS

E6.1.1. Alpha and alphanumeric data shall be in upper case and left justified with trailing blanks unless noted otherwise.

E6.1.2. Numeric data shall be right justified with leading zeros.

E6.1.3. Records shall be sorted in sequence by Organization Type Code, Organization Code, and Unit Identification Code.

E6.2. ELECTRONIC SUBMISSION

E6.2.1. The submitting DoD Component shall contact the DMDC Billet and Unit Master File Manager, who shall establish an account number and password exclusively for these reports and provide additional system specifications, including security protocols appropriate to protect the data from compromise and consistent with standards established by the National Institute of Standards and Technology.

E6.2.1.1. Transmission of classified and sensitive information: The confidentiality level of data specified in enclosure 4 and enclosure 5 and sent to the DMDC has been defined as classified or sensitive as established by DoD Instruction 8500.2 (reference (n)). Classified information shall be transmitted via the SIPRNET. Sensitive information may be sent via the SIPRNET or NIPRNET. Sensitive information sent via the NIPRNET must be encrypted prior to transmission.

E6.2.2. Transmission Protocol: The DMDC supports standard Secure File Transfer Protocol and Secure Copy Protocol software and can accept compressed (zipped) data files. The file names shall be consistent with the naming convention outlined in paragraph E6.2.3., below. The submitting organization is responsible for the accuracy and completeness of each electronic data transfer.

E6.2.3. File Naming Convention: The file or data set names of electronic submissions shall be in the format "ABBBBCDEYYYYMM" (all upper case) for Billet and Unit Master files, where A, BBBBB, C, D, E and YYYYNN equal the appropriate value specified in Table E6.T1.

Table E6.T1. Submission File Name Format

Position	Data Element Name	Code/Definition
A	Submitting Organization Type Code	A Office of Secretary of Defense and DoD Inspector General B Joint Staff and Chairman Controlled Activities C Unified/Combined Commands D Military Services E Defense Agencies F DoD Field Activities G Other Defense-wide Organizations H Executive Office of the President I Cabinet-Level Departments and Agencies J Federal Boards, Commissions and Committees K Federal Independent Agencies and Government Corporations L Federal Quasi-Official Agencies M Federal Legislative Branch N Federal Judicial Branch O State and Local Government Activities P Universities, Institutes and Training Centers Q Other Non-Governmental Activities R International Agencies and Activities Note: The code of the submitting organization will be used in this field.
BBBBB	Submitting Organization Code	See enclosure 4, ATTACHMENT 1 for list of domain values and definitions. Note: The code of the submitting organization will be used in this field.
C	Data Type Code	B Billet Master U Unit Master
D	File Type Code	M Master Submission
E	File Period Type Code	M Monthly or end of the month Q Quarterly B Biannually
YYYYMM	Submission File Period Date	Report a period date (YYYYMM).

E6.3. DISKETTE SPECIFICATIONS

E6.3.1. File format: American Standard Code for Information Interchange (ASCII) text (PRN).

E6.3.2. File Naming Convention: As specified in paragraph E6. 2.3.

E6.3.3. Disk Specifications

E6.3.3.1. 100MB Zip disk Specifications

E6.3.3.1.1. Physical characteristics: 100MB Zip disk - 3"X 3"X 3/16"

E6.3.3.1.2. Storage capacity: 100 MB

E6.3.3.2. GB JAZ disk Specifications

E6.3.3.2.1. Physical characteristics: 1GB Jaz disk - 5"X 4"X 7/16".

E6.3.3.2.2. Storage capacity: 1 GB.

E6.3.3.3. Compact Disks (CD).

E6.3.3.3.1. Physical characteristics: 1 x 24 Recording speeds. Standard 12 cm/120mm physical size.

E6.3.3.3.2. Storage capacity: 650 MB, 700 MB.

E6.3.3.3.3. CD-Recordable (CD-R) or CD-Rewritable (CD-RW)

E6.4. EXTERNAL LABEL

E6.4.1. Classification Marking:

E6.4.1.1. The overall classification of the submission file.

E6.4.1.2. The agency, office of origin, and date of the submission file.

E6.4.1.3. Identification of the source(s) of classification of the information contained in the submission file.

E6.4.1.4. Declassification instructions and any downgrading instructions that apply.

E6.4.1.5. Control notices and other markings that apply to the submission data.

E6.4.2. Organization Name.

E6.4.3. Report as of date.

E6.4.4. Report Control Symbol.

E6.4.5. Record count.

E6.4.6. Storage Format: ASCII text.

E6.4.7. Diskette number or CD number.

E6.5. INTERNAL TRAILER RECORD LABEL

E6.5.1. Each file shall include an internal trailer record signifying the end of the file. Table E6.T2. describes the information contained in the trailer record.

Table E6.T2. Trailer Record Format

Record Position	Data Element Name	Description
1-4	File End	Length 4. Literal character field consisting of the characters #END.
5-12	Record count	Length 8. Numeric field: Total number of records; do not include the trailer record in the record count. Right justified and padded with zeros ('0') and no commas.
13-27	File Name	Length 15. Character field: Same format as E6.2.3.
28-50	Submitting DoD Component acronym name	Length 23. Character field: Example DISA, USN, WHS
51-130	Work E-mail address of the submitting individual	Length 80. Character field: Left justified

E6.6. ACCOMPANYING WRITTEN DOCUMENTATION

E6.6.1. All data submissions shall be accompanied by the following minimum written documentation: Classification Marking (if external label is not provided, see paragraph E6.4.1.), file format (if differing from the standards contained in enclosure 4 and enclosure 5), total record counts for each file submitted, and other relevant information related to Organization-specific data elements.

E6.6.2. For the Billet Master File, the written documentation shall also list the current year authorization totals for each organization and authorization subtotals for each organization by Position Manpower Type Code Category.

E6.6.3. At the discretion of the reporting DoD Component the Force Structure Deviations for the reported fiscal years may be included in the accompanying written documentation.

E6.7. SHIPPING INSTRUCTIONS

Diskettes, CDs, and JAZ diskettes shall be shipped via registered mail per current DoD Regulations to the following address:

DMDC, DoD Center
ATTN: Billet and Unit File Manager
400 Gigling Road
Seaside, CA 93955-6771
